GCP 4000 Release Notes

A new release of the GCP 4000 MCF has been issued. This release addresses 2 minor issues and adds two enhancements regarding the program menus on the display and Min Program Report

GCP-t6x-02-1.mcf is compatible with:
- CPU2+ Software NCG03_00.MEF, VPH03_00.mef (or later) and
- GCP Track Module software GCP03_00.MEF (or later).

Current Software

Presently released	Install Location	New Release	CRC
Gcp-t6x-02-0.mcf	CPU2+ DIAG (CP) Port	gcp-t6x-02-1.mcf	6076E435

MCF: GCP-T6X-02-1.MCF

1. MCF gcp-t6x-02-1 has been changed to always display the predictor warning times in the min program report.

2. MCF gcp-t6x-02-1 now only displays DAX offsets in the template menu when DAX's are selected in the main menu.

3. When the GP'S coupled menu is hidden in the main menu, MCF gcp-t6x-02-1, will no longer display GP's coupled in the template menu.

4. MCF gcp-t6x-02-1 changes the description for template 3F corrected to, 2 bi, 1 uni pair, 1 remote pair.
